

INTERSTATE POWER AND LIGHT COMPANY GAS TARIFF

Filed with the IOWA UTILITIES BOARD

ORIGINAL TARIFF NO. 1

SIXTH REVISED SHEET NO. 60
CANCELLING FIFTH REVISED SHEET NO. 60

ALL PRICING ZONES PIPELINE CORRIDOR TRANSPORTATION SERVICE

RATE CODES 800, 820 & 890

D

Applies to: This price schedule is applicable, on an optional basis, to any existing or prospective transport customer who contracts with Company for a period of more than a year. This transportation service is available on a non-discriminatory basis, taking into consideration of volumes of gas transported, length of contract terms, distance from the pipeline, and other pertinent costs and factors.

This price schedule applies to the customers whose point of delivery is less than two miles from an interstate pipeline's transmission or branchline facilities, and whose annual transportation throughput is at least 500,000 Dekatherms with a daily demand requirement of at least 2,000 Dekatherms per day. Customers located more than two miles from the aforementioned interstate pipeline facilities may also be served under this schedule if additional daily demand requirements and annual throughput volumes so dictate.

Resale of gas is not permitted. The customer shall sign a Service Agreement pursuant to this schedule for a minimum term of one year.

Available In: All communities served by the Company.

Price:

- I. Customer Charge: \$7.39645/Day

The Customer shall be responsible for all costs associated with any specific plant such as telemetering required in providing transportation service to the Customer. The additional charge is 1.6% per month of the Company's additional investment.

Minimum Bill: Customer Charge, including additional investment charges plus applicable backup supply service charges or pipeline firm transportation charges.

- II. Transportation Price:

The price for each Dekatherm transported by Company to Customer's premises shall be the negotiated price pursuant to the service agreement.

Date Issued: November 21, 2013

Effective Date: December 21, 2013
