Anaerobic Digester	2.91%	3.10%	Fond du Lac, WI
TOTAL	100.00%	100.00%	

The 2008 actual power mix shown above represents the resource makeup of renewable electricity (kilowatt-hours) purchased in Alliant Energy's Second Nature program. Alliant Energy's 2008 total electric energy mix contains the following resources: coal (54%), purchased power (42%), natural gas (3%) and other (1%). (Modified: 2/11/2009)

¹ These figures reflect the nameplate kilowatt-hour capacity of the power that we expect to generate and/or have contracted to provide. Actual figures may vary according to resource availability.

² New Renewables are generation facilities in operation on or after January 1, 1997.

For specific information about this electricity product, contact Alliant Energy, 1-800-ALLIANT, www.alliantenergy.com

Green-e Energy® certifies that Alliant Energy's Second Nature program meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, call 1-888-63-GREEN or log on to www.green-e.org.
