

# Loads of savings - Clothes Washer Cash Reward

Alliant Energy **must provide the main source of energy for either the water heater or the clothes dryer in order to qualify for their clothes washer cash reward.** Since water heaters and clothes dryers can be powered by electricity or natural gas, you must determine the fuel type and the fuel source of the water heater and the dryer. The energy/fuel can come from Alliant Energy, from another utility or a mix. If it is a mix, customers may apply to both utilities for a cash reward. We encourage you and your customers to contact the other utility to verify its reward program and eligibility requirements. **Note: if Alliant Energy provides the water heater fuel source and the dryer fuel source, the reward is limited to \$100.**

Water Heater fuel type		
Alliant Energy Electric	Alliant Energy Natural Gas	Other
\$100	\$100	\$0*

Clothes Dryer fuel type		
Alliant Energy Electric	Alliant Energy Natural Gas	Other
\$100	\$100	\$0*

**If you have questions we encourage you to call our Energy Efficiency Hotline at 1-866-ALLIANT (1-866-255-4268). Our team will be happy to answer your questions, and even send or email you additional information.**

*\*If "other" was chosen in both sections, the customer does not qualify for a reward from Alliant Energy. Clothes Washer rewards are provided by multiple utilities. IPL encourages customers to contact both gas and electric utility providers to determine possible reward eligibility.*

Alliant Energy is the trade name of Alliant Energy Corporation and its principal utility subsidiaries Wisconsin Power and Light Company and Interstate Power and Light Company.
