

Alliant Energy® Customer-Hosted Renewables

Hy-Vee Chariton Solar Field

Alliant Energy has partnered with Hy-Vee on a solar project at its distribution center in Chariton, Iowa. The Hy-Vee Chariton Solar Field falls under the Alliant Energy Customer-Hosted Renewables program that allows business and municipal customers to lease their land for renewable energy projects. The clean energy this project generates will go directly to the community.

Fast facts

Developer: SunVest | **Size:** 2.25 MW | **Panels:** 4,400

Why solar?

Clean energy including solar has become increasingly cost effective in the last few years. Solar projects generate energy customers enjoy for many years, with no added fuel costs and low operation and maintenance costs. With this solar project, Hy-Vee showcases its commitment to sustainability.

Alliant Energy owns and operates the Hy-Vee Chariton Solar Field to efficiently deliver affordable, reliable and safe energy to homes, businesses and communities. Partnering with customers to develop solar projects is just another way we keep our customers at the heart of everything we do. For more information, visit poweringwhatsnext.alliantenergy.com.

Clean Energy Blueprint

The Hy-Vee Chariton Solar Field is part of our Clean Energy Blueprint, a strategic roadmap to cost-effectively accelerate renewable energy and reduce carbon emissions. Alliant Energy's sustainability goals include eliminating all coal from our generation fleet by 2040 and achieving net-zero greenhouse gas emissions from our utility operations by 2050.

Alliant Energy works tirelessly to modernize its utility grid for the benefit of future generations of customers across Iowa and Wisconsin. We build smarter energy infrastructure to deliver cleaner, more reliable, more resilient energy to all customers and maintain affordable rates. A smarter grid means customers get more control, choices and flexibility.
